

Patent claims:

1. A solution with factor VIII:C activity containing an amino acid or one of its salts or derivatives and, where appropriate, a detergent or an organic polymer.
2. A solution as claimed in claim 1, wherein the amino acid is a natural amino acid.
3. A solution as claimed in claim 1, wherein the amino acid is a basic amino acid.
- 10 4. A solution as claimed in claim 1, which contains arginine and glycine.
5. A solution as claimed in claim 1, wherein the concentration of the amino acid is 0.001 to 1 mol/l.
- 15 6. A solution as claimed in claim 1, which contains an organic polymer or a nonionic detergent.
7. A solution as claimed in claim 1, wherein the F VIII:C activity derives from human factor VIII in its form which occurs in plasma or from a genetically engineered factor VIII:C or from a derivative of these.
8. A solution as claimed in claim 1, wherein the specific F VIII:C activity is at least 1000 IU/mg.
9. A pharmaceutical containing a solution as claimed in claim 1.
- 25 10. A pharmaceutical as claimed in claim 9, which contains customary, pharmaceutically compatible, stabilizing and/or buffering substances.
11. A pharmaceutical as claimed in claim 9, which contains a carbohydrate.
